## Message from the Headteacher

Dear Parents/Carers,

Well done to our new School Councillors, who were voted in this week. A big thank you to everyone who took part. I look forward to hearing about all your wonderful ideas.

It was lovely to see the KS1 and the Yr 3/4 children taking part in their sports days this week. How great that we can return to these after Covid. Unfortunately, our second sports day was cancelled, due to the weather. Fingers crossed for some better weather next time (please make a note of the new date).

Reminder – the photographer will be coming in next week to take class photos for Pre-School, Reception, KS1 and KS2, apart from Y6, who will have theirs taken the following week.

This year, we are returning to our annual open evenings, on Wednesday 13<sup>th</sup> and Thursday 14<sup>th</sup> July 4pm – 6pm. This is a great opportunity for parents/carers to have a look at books and be able to talk to the class teacher about the progress children have made this year. We are not setting appointments or phoning parents, as we are sending out the end of year reports next week.

As always, if you have any questions, please get in touch and have a great weekend. Many thanks, Jon Stevens.

## Information

### Dates for your Diary

**Pre-School Sports Day** – Fri 8<sup>th</sup> July at 10.30am

## Sustainability and Climate Change Strategy

The Government has published its sustainability strategy to improve the education sector's response to climate change by 2030.

Therefore, the DfE have tasked schools to create an environmentally sustainable action plan, in order to equip our children with the knowledge and understanding of the world around them and the issues surrounding our global environment.

Therefore, Governors will be looking into this as an area to establish and develop within school.

The DfE's strategy (summarised below) sets out a lot of goals between now and 2030. Therefore, it won't all be completed at once. However, a clear pathway and timeline will be developed, so that Governors, parents and children will be able to see the progress that we are making towards the goals of a more sustainable future.

For further information, please click on the link below: <https://www.gov.uk/government/publications/sustainability-and-climate-change-strategy>

### The DfE's Strategy's Main Aims

<p><b>Curriculum</b></p> <p><b>Aim:</b> To offer young people a better knowledge and understanding of climate change and a connection to nature e.g. teaching children about environmental issues and preparing them for a world impacted by climate change.</p>	<p><b>School Premises</b></p> <p><b>Aim:</b> To improve the physical environment in and around education settings so that it is resilient to the impacts of climate change and inspires young people and others to live sustainable lives e.g. energy efficient lighting/growing more plants and trees.</p>
<p><b>Community</b></p> <p><b>Aim:</b> To inspire young people to choose – and give them the skills and knowledge they need for – career paths that support the transition to net zero, the restoration of biodiversity and a sustainable future e.g. through assemblies and teaching, help pupils to see and learn about a wide range of green careers and skills in action.</p>	<p><b>Culture</b></p> <p><b>Aim:</b> To encourage schools to operate and regulate in a way that introduces pupils to more sustainable practices, such as: waste prevention / resource efficiency e.g. turning lights off / reduce printing on paper.</p>
